

# HIGH SPEED CHOP SAW

**Fast cycle - low maintenance**

- Sizes from 48" to 84"
- 50 - 100 HP

## RUGGED CONSTRUCTION

- Heavy wall tubing with plated and reinforced framework to stand up to continuous high speed cycling.
- Self aligning bearings with oversized shafts.

## SIMPLE DESIGN

- Built with 50 years of sawmill experience.
- 1,200 RPM motor for direct drive with high torque at the blade (No hidden chain drive to repair).
- Balanced ladder with gravity hold-downs requires no additional controls or time to cycle clamps.
- Compact design for tight clearances.

## HIGH SPEED CYCLES

- 1.9 to 3 second round trip cycles with 15,000 SFM rim speeds.

## TOP QUALITY COMPONENTS

- Cast iron TEFC 1,200 RPM motors
- Cushioned cylinders with oversized rods.
- Built-in flow controls on bulkhead fittings.
- Complete packages with controls and hydraulic power units available for single or multiple saw systems.
